Overview

With the support of practitioners, professors and students, **Auditing and Assurance in Hong Kong** (1st Edition) became one of the best selling auditing textbooks in HK. While significant amendments to the auditing and assurance standards (including a total of 36 newly updated and clarified International Standards on Auditing and Quality Control as well as their HK equivalents) will become effective for audits of financial statements for periods beginning on or after 15 December 2009, **Auditing and Assurance in Hong Kong (2nd Edition)** has significantly been revised with reference to the latest developments in the auditing standards in Hong Kong in 2009.

Auditing and Assurance in Hong Kong (2nd Edition) is one of the first books to cover such latest regulatory developments in Hong Kong. It is designed not only for the students and prospective accountants, but also as a reference to the professional accountants and practitioners in Hong Kong.

Key Features

- Latest coverage of HKSAs and HKSQC issued in 2009
- Numerous illustrative examples
- Tailor-made illustrative flowcharts to help readers easily understand
- Case studies and recent QP and ACCA exam questions
