## Effective for 2009 Dec. Year-End

### Selected new interpretations and amendments to IFRSs

	Effective for periods beginning on/after
• Amendments to IFRS 2 <i>Vesting Conditions and Cancellations</i>	➤ 1 Jan. 2009
• IFRS 8 <i>Operating Segments</i>	➤ 1 Jan. 2009
• IAS 1 (Revised) <i>Presentation of Financial Statements</i>	➤ 1 Jan. 2009
• IAS 23 (Revised) <i>Borrowing Costs</i>	➤ 1 Jan. 2009
• Amendments to IFRS 1 and IAS 27 <i>Cost of an Investment in a Subsidiary, Jointly Controlled Entity or Associate</i>	➤ 1 Jan. 2009
• Amendments to IAS 32 and IAS 1 <i>Puttable Financial Instruments and Obligations Arising on Liquidation</i>	➤ 1 Jan. 2009
• IFRIC 13 <i>Customer Loyalty Programmes</i>	➤ 1 Jul. 2008
• IFRIC 15 <i>Agreements for the Construction of Real Estate</i>	➤ 1 Jan. 2009
• IFRIC 16 <i>Hedges of a Net Investment in a Foreign Operation</i>	➤ 1 Oct. 2008
• Annual improvements to IFRSs 2008	➤ 1 Jan. 2009
• IFRIC 18 <i>Transfers of Assets from Customers</i>	➤ 1 Jul. 2009 (trans. date)
• Amendments to IFRS 7 <i>Improving Disclosure about Financial Instruments</i>	➤ 1 Jan. 2009
• Amendments to IFRIC 9 and IAS 39 <i>Embedded Derivatives</i>	➤ Ended on/after 30 Jun. 2009

© 2008-10 Nelson Consulting Limited

Updated from HKICPA, "HKFRS Update", 6 Nov. 2009

## Effective for 2010 Dec. Year-End

### Selected new interpretations and amendments to IFRSs

	Effective for periods beginning on/after
• IFRS 1 (Revised) <i>First-time Adoption of IFRS</i>	➤ 1 Jul. 2009
• Amendments to IFRS 1 <i>Additional Exemptions for First-time Adopters</i>	➤ 1 Jan. 2010
• Amendments to IFRS 2 <i>Share-based Payment – Group Cash-settled Share-based Payment Transactions</i>	➤ 1 Jan. 2010
• IAS 27 (Revised) <i>Consolidated and Separate Financial Statements</i>	➤ 1 Jul. 2009 
• IFRS 3 (Revised) <i>Business Combination</i>	➤ 1 Jul. 2009 
• Amendments to IAS 39 <i>Eligible Hedged Items</i>	➤ 1 Jul. 2009
• IFRIC 17 <i>Distributions of Non-cash Assets to Owners</i>	➤ 1 Jul. 2009
• IFRIC 19 <i>Extinguishing Financial Liabilities with Equity Instruments</i>	➤ 1 Jul. 2010
• Annual Improvements to IFRSs 2009	➤ 1 Jan. 2010  (unless specified)
• IFRS for SME (or HKFRS for Private Entities )	➤ Effective upon issue

## Effective after 2010 Dec. Year-End

### Selected new interpretations and amendments to IFRSs

	Effective for periods beginning on/after
• Amendments to IAS 32 <i>Classification of Rights Issues</i>	➤ 1 Feb. 2010
• IAS 24(Revised) <i>Related Party Disclosures</i>	➤ 1 Jan. 2011 
• IFRS 9 <i>Financial Instruments</i>	➤ 1 Jan. 2013 
• Amendments to IFRIC 14 <i>IAS 19 —The Limit on a Defined Benefit Asset, Minimum Funding Requirements and their Interaction</i>	➤ 1 Jan. 2011
• Amendment to IFRS 1 <i>First-time Adoption of Hong Kong Financial Reporting Standards – Limited Exemption from Comparative IFRS 7 Disclosures for First-time Adopters</i>	➤ 1 Jul. 2010
• Annual Improvements to IFRSs 2010	➤ 1 Jan. 2011 (unless specified)

- AB 4 *Guidance on the Determination of Realised Profits and Losses in the Context of Distributions under the Hong Kong Companies Ordinance*

# Consolidated Financial Statements

(IAS 27 Revised in 2008)

© 2008-10 Nelson Consulting Limited

5

## Consolidation Procedures

- Consolidation procedures are similar to previous standard, but .....
- Minority interests renamed as “non-controlling interests”, which
  - is the equity in a subsidiary not attributable, directly or indirectly, to a parent.

© 2008-10 Nelson Consulting Limited

6

## Consolidation Procedures

- Most critical .....
  - Changes in a parent's ownership interest in a subsidiary that do not result in a loss of control
    - are accounted for **as equity transactions** (i.e. transactions with owners in their capacity as owners)
      - no gain or loss on disposal of interests in subsidiary can be recognised in profit or loss if the subsidiary is still a subsidiary.

## New Practice on Loss of Control

- Specific requirements introduced when a parent loses control of a subsidiary:
  - If a parent loses control of a subsidiary, it:
    - a) derecognises the assets (including any goodwill) and liabilities of the subsidiary at their carrying amounts at the date when control is lost;
    - b) derecognises the carrying amount of any non-controlling interests in the former subsidiary at the date when control is lost (including any components of other comprehensive income attributable to them);
    - c) recognises:
      - i) the fair value of the consideration received, if any, from the transaction, event or circumstances that resulted in the loss of control; and
      - ii) if the transaction that resulted in the loss of control involves a distribution of shares of the subsidiary to owners in their capacity as owners, that distribution;

## New Practice on Loss of Control

- Specific requirements introduced when a parent loses control of a subsidiary:
  - If a parent loses control of a subsidiary, it:
    - d) recognises any investment retained in the former subsidiary at its fair value at the date when control is lost;
    - e) reclassifies to profit or loss, or transfers directly to retained earnings if required in accordance with other IFRSs, the amounts identified in IAS 27.35 (discussed in next slide); and
    - f) recognises any resulting difference as a gain or loss in profit or loss attributable to the parent.

## New Practice on Loss of Control

- If a parent loses control of a subsidiary,
  - the parent shall account for all amounts recognised in other comprehensive income in relation to that subsidiary
    - on the same basis as would be required if the parent had directly disposed of the related assets or liabilities.
- Therefore, if a gain or loss previously recognised in other comprehensive income would be reclassified to profit or loss on the disposal of the related assets or liabilities,
  - the parent reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) when it loses control of the subsidiary.

# New Practice on Loss of Control

Example

Think about 2 different cases with similar figures:

HK\$	Sub. A	Sub. B
Sale proceeds	100	100
Carrying amount of the subsidiary's net assets in consolidated financial statements	100	100

Anything recognised in profit or loss?

What is the further information you have to ask?

# New Practice on Loss of Control

Example

What if .....

similar figures:

HK\$	Sub. A	Sub. B
Sale proceeds	100	100
Carrying amount of the subsidiary's net assets in consolidated financial statements	100	100
Representing:		
- Revalued amount of available-for-sale	100	
- Revalued amount of PPE		100
Revaluation reserves	20	20

Anything recognised in profit or loss?

# New Practice on Loss of Control

## Example

A parent loses control of a subsidiary and the subsidiary has the following assets:

- The subsidiary has available-for-sale financial assets
- The subsidiary has property, plant and equipment with revaluation surplus previously recognised in other comprehensive income

The parent shall reclassify to profit or loss the gain or loss previously recognised in other comprehensive income in relation to those assets.

The parent transfers the revaluation surplus directly to retained earnings when it loses control of the subsidiary

- since the revaluation surplus would be transferred directly to retained earnings on the disposal of the asset

# New Practice on Loss of Control

## Example

What if .....

similar figures:

HK\$	Sub. A	Sub. B
Sale proceeds	100	100
Carrying amount of the subsidiary's net assets in consolidated financial statements	100	100
Representing:		
- Revalued amount of available-for-sale	100	
- Revalued amount of PPE		100
<i>Revaluation reserves</i>	20	20

Revaluation reserves relating to available-for-sale reclassified to profit or loss

Revaluation reserves relating to PPE transferred directly to retained earnings

# Business Combinations

(IFRS 3 Revised in 2008)

## Introduction – Key Changes

- Extended the scope, i.e. less exemption
- Acquisition-date fair value extensively applied, including:
  - Non-controlling interests (or minority interests) can be measured at “full” fair value approach
  - Goodwill can incorporate the goodwill of non-controlling interests
  - Intangible asset identified in the business combination shall be measured at fair value
  - Contingent consideration shall be measured at fair value
- Step acquisition shall be measured by a different approach
- All transactions costs to be expensed

# The Acquisition Method

- An entity shall account for each business combination by applying **the acquisition method**. (IFRS 3.4)
- Applying the acquisition method requires:
  - a) identifying the acquirer; Guidance in IAS 27
  - b) determining the acquisition date; Date of control obtained
  - c) recognising and measuring
    - the identifiable assets acquired,
    - the liabilities assumed and
    - any non-controlling interest in the acquiree; and
  - d) recognising and measuring
    - goodwill or
    - a gain from a bargain purchase. (IFRS 3.5)

# The Acquisition Method

- Recognising and measuring the identifiable assets acquired, the liabilities assumed and any non-controlling interest in the acquiree

Application of the method

- As of the acquisition date, the acquirer shall **recognise**, separately from goodwill,
  - the identifiable assets acquired,
  - the liabilities assumed and
  - any non-controlling interest in the acquiree.
- Recognition of identifiable assets acquired and liabilities assumed is subject to the conditions specified in IFRS 3.11 and 3.12. (IFRS 3.10)

## The Acquisition Method

- Recognising and measuring the identifiable assets acquired, the liabilities assumed and any non-controlling interest in the acquiree
- To qualify for recognition as part of applying the acquisition method,
  - the identifiable assets acquired and liabilities assumed must meet the definitions of assets and liabilities in the *Framework for the Preparation and Presentation of Financial Statements* at the acquisition date.
- The acquirer's application of the recognition principle and conditions may result in
  - recognising some assets and liabilities that the acquiree had not previously recognised as assets and liabilities in its financial statements.

## The Acquisition Method

### Example

- Recognising and measuring the identifiable assets acquired, the liabilities assumed and any non-controlling interest in the acquiree
- An operating lease in which the acquiree is the lessee is normally not recognised as assets or liabilities except for:
  - if the terms of an operating lease are favourable relative to market terms
    - the acquirer shall recognise an intangible asset
  - if the terms are unfavourable relative to market terms
    - the acquirer shall recognise a liability (IFRS 3.B29)
- If the terms of an operating lease in which the acquiree is the lessor are either favourable or unfavourable when compared with market terms
  - The acquirer does not recognise a separate asset or liability (IFRS 3.B42)

# The Acquisition Method

- Recognising and measuring the identifiable assets acquired, the liabilities assumed and any non-controlling interest in the acquiree

- The acquirer shall **measure** the identifiable assets acquired and the liabilities assumed

- at their acquisition-date fair values. (IFRS 3.18)

Affect acquisition in stages

- For each business combination, the acquirer shall **measure** any non-controlling interest in the acquiree either

- at fair value or

New alternative ("full goodwill method")

- at the non-controlling interest's proportionate share of the acquiree's identifiable net assets. (IFRS 3.19)

Existing practice

# The Acquisition Method

Example

## Existing Methodology

	HK\$
Fair value of identifiable net assets of Entity A	100
Purchase 75% interest in Entity A (consideration is \$120)	120
Non-controlling interest (\$100 × 25%) (at its proportionate share of Entity A's identifiable net assets)	25

# The Acquisition Method

Example

Existing Methodology		New Methodology ("Full goodwill method")	
	HK\$		HK\$
Fair value of identifiable net assets of Entity A	100		
Purchase 75% interest in Entity A (consideration is \$120)	120	Fair value of Entity A as a whole (\$120 ÷ 75%)	160
Non-controlling interest (\$100 × 25%) (at its proportionate share of Entity A's identifiable net assets)	25	NCI (\$160 × 25%) (at fair value)	40

© 2008-10 Nelson Consulting Limited

23

# The Acquisition Method

Critical Amendment

- Recognising and measuring goodwill or a gain from a bargain purchase

- The acquirer shall **recognise goodwill** as of the acquisition date measured as the excess of (a) over (b) below:

Application of the method

If fair value is adopted, it will affect the amount of goodwill

Practices changed

- the aggregate of:
  - the consideration transferred measured in accordance with IFRS 3, which generally requires acquisition-date fair value;
  - the amount of any non-controlling interest in the acquiree measured in accordance with IFRS 3; and
  - in a business combination achieved in stages, the acquisition-date fair value of the acquirer's previously held equity interest in the acquiree.
- the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed measured in accordance with IFRS 3. (IFRS 3.32)

© 2008-10 Nelson Consulting Limited

24

# The Acquisition Method

Example

Existing Methodology	
	HK\$
Fair value of identifiable net assets of Entity A	<u>100</u>
Purchase 75% interest in Entity A (consideration is \$120)	120
Parent's interest – 75% of fair value of identifiable net assets (\$100 × 75%)	<u>75</u>
Non-controlling interest (\$100 × 25%) (at its proportionate share of Entity A's identifiable net assets)	
Goodwill (\$120 - \$75)	45

# The Acquisition Method

Example

Existing Methodology		New Methodology	
	HK\$		HK\$
Fair value of identifiable net assets of Entity A	<u>100</u>	<u>100</u>	<b>b</b>
Purchase 75% interest in Entity A (consideration is \$120)	120	120	<b>a(i)</b>
Parent's interest – 75% of fair value of identifiable net assets (\$100 × 75%)	<u>75</u>		
Non-controlling interest (\$100 × 25%) (at its proportionate share of Entity A's identifiable net assets)		<u>25</u>	<b>a(ii)</b>
		<u>145</u>	
Goodwill (\$120 - \$75)	45	45	

$$\begin{aligned}
 & \$ (120 + 25) - \$ 100 \\
 & = \$ 45
 \end{aligned}$$

# The Acquisition Method

Example

Existing Methodology		New Methodology	
	HK\$	HK\$	HK\$
Fair value of identifiable net assets of Entity A	<u>100</u>	<u>100</u>	<u>100</u> ← b
Purchase 75% interest in Entity A (consideration is \$120)	120	120	120 ← a(i)
Parent's interest – 75% of fair value of identifiable net assets (\$100 × 75%)	<u>75</u>		
Non-controlling interest (\$100 × 25%) (at its proportionate share of Entity A's identifiable net assets)		<u>25</u>	<u>40</u> ← a(ii)
		<u>145</u>	<u>160</u>
Goodwill (\$120 - \$75)	45	45	60

$\$120 \div 75\% = \$160$   
 $\$160 \times 25\% = 40$

$\$(120 + 40) - \$100 = \$60$

© 2008-10 Nelson Consulting Limited

27

# The Acquisition Method

- Additional guidance
  - Amended practices on business combination achieved in stages

- In a business combination achieved in stages, the acquirer shall
  - remeasure its previously held equity interest in the acquiree **at its acquisition-date fair value** and
  - recognise the resulting gain or loss, if any, in profit or loss. (IFRS 3.42)

## Improvements to IFRSs 2009

## Introduction

- Annual Improvement Project
  - A vehicle for making non-urgent but necessary amendments to IFRS (and consequentially IFRSs)
  - Introduced by the IASB in 2007 and issued each year
  - Improvement to IFRSs 2009 is the one finalised in 2009
- The project has amended
  - 10 IFRSs and 2 IFRIC Interpretations

# Summary

## Amendments to

IFRS 2	Share-based Payment
IFRS 5	Non-current Assets Held for Sale and Discontinued Operations
IFRS 8	Operating Segments
IAS 1	Presentation of Financial Statements
IAS 7	Statement of Cash Flows
IAS 17	Leases
IAS 18	Revenue
IAS 36	Impairment of Assets
IAS 38	Intangible Assets
IAS 39	Financial Instruments: Recognition and Measurement
IFRIC 9	Reassessment of Embedded Derivatives
IFRIC 16	Hedges of a Net Investment in a Foreign Operation

# Amendments to IAS 17

Do you remember these 2 paragraphs in IAS 17?

## IAS 17 Leases

- Leases of land and of buildings are classified as operating or finance leases in the same way as leases of other assets. However, a characteristic of land is that it normally has an indefinite economic life and, if title is not expected to pass to the lessee by the end of the lease term, the lessee normally does not receive substantially all of the risks and rewards incidental to ownership, in which case the lease of land will be an operating lease. A payment made on entering into or acquiring a leasehold that is accounted for as an operating lease represents prepaid lease payments .....
- The land and buildings elements of a lease of land and buildings are considered separately for the purposes of lease classification. If title to both elements is expected to pass to the lessee by the end of the lease term, both elements are classified as a finance lease ....., When the land has an indefinite economic life, the land element is normally classified as an operating lease unless title is expected to pass to the lessee by the end of the lease term, in accordance with para. 14. The buildings element is classified as a finance or operating lease in accordance with para. 7–13.

## Amendments to IAS 17

Do you remember these 2 paragraphs in IAS 17?

### IAS 17 Leases

- Leases of land and of buildings are classified as operating or finance leases in the same way as leases of other assets. However, a characteristic of land is that it has an indefinite economic life.
- As part of its annual improvements project in 2007, the IASB reconsidered the decisions it made in 2003, specifically the perceived inconsistency between
  - the general lease classification guidance in IAS 17.7–13 and
  - the specific lease classification guidance in IAS 17.14 and 15 related to long-term leases of land and buildings.
- The IASB concluded that the guidance in IAS 17.14 and 15 might lead to a conclusion on the classification of land leases that does not reflect the substance of the transaction.

## Amendments to IAS 17

### IAS 17 Leases

- IAS 17.14 and 15 are deleted and IAS 17.15A is added as follows:
  - When a lease includes both land and buildings elements, an entity assesses the classification of each element as a finance or an operating lease separately in accordance with IAS 17.7–13.
  - In determining whether the land element is an operating or a finance lease, an important consideration is that land normally has an indefinite economic life.

# Amendments to IAS 17

## Example

- IASB describes in IAS 17.BC8B and BC8C that:
  - For example, consider a 999-year lease of land and buildings.
    - In this situation, significant risks and rewards associated with the land during the lease term would have been transferred to the lessee despite there being no transfer of title.
    - The Board noted that the lessee in leases of this type will typically be in a position economically similar to an entity that purchased the land and buildings.
    - The present value of the residual value of the property in a lease with a term of several decades would be negligible.
    - The Board concluded that the accounting for the land element as a finance lease in such circumstances would be consistent with the economic position of the lessee.

Unclear how long the lease term must be for the IASB to conclude that a lessee and a purchaser are in the same economic position

# Amendments to IAS 17

## Case

### Financial Statements 2009

- Note 2 states (for early adoption of Amendment to HKAS 17 in 2009):
  - The early adoption of the amendment to HKAS 17 has resulted in a change in accounting policy for the classification of leasehold land of the Group.
  - Previously, leasehold land was classified as an operating lease and stated at cost less accumulated amortisation.
  - In accordance with the amendment, leasehold land is classified as a finance lease and stated at cost less accumulated depreciation if substantially all risks and rewards of the leasehold land have been transferred to the Group.
    - As the present value of the minimum lease payments (ie, the transaction price) of the land held by the Group amounted to substantially all of the fair value of the land as if it were freehold,
      - the leasehold land of the Group has been classified as a finance lease.
        - The amendment has been applied retrospectively to unexpired leases at the date of adoption of the amendment on the basis of information existing at the inception of the leases. The amendment does not apply to the leasehold land disposed of by the Group in prior years.

# Related Party Disclosures

(IAS 24)

© 2008-10 Nelson Consulting Limited

37

## Key Amendments

- Related party – Definition change
- Government-related entities – Definition and Exemption
- Commitment is included for disclosure

© 2008-10 Nelson Consulting Limited

38

## Definition of a Related Party – Key Changes

- Clearly separate the related party to 2 angles:
  - 1) Person (replaced “individual” as well), and
  - 2) Entity
- Eliminate inconsistencies in the definition and make it symmetrical:
  - When Entity A is identified as a related party in Entity B’s financial statements, Entity B will also be identified as related party in Entity A’s financial statements.
- Entities with only “common significant influence” (no matter from an entity or a person) are not related to each other
- However, whenever a person or entity has both
  - joint control over Entity X and
  - joint control or significant influence over Entity Y,
    - Entity X and Y are related to each other.

## Definition of a Related Party – Key Changes

### Example

- Entity A and B are related to each other in both Entity A’s and B’s financial statements
- Previously, they are not regarded as related parties.

## Definition of a Related Party – Key Changes

- Remove the term “significant voting power” in the definition of a related party
- Clarify that
  - An associate includes subsidiaries of the associate and
  - A joint venture includes subsidiaries of the joint venture
  - Two entities are not related parties simply because a member of key management personnel of one entity has significant influence over the other entity.
- Amended that
  - Close members of the family of an individual are (not may) those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity and include (not “they may include” as in previous IAS 24):
    - a) the person’s children and spouse or domestic partner;
    - b) children of the person’s spouse or domestic partner; and
    - c) dependants of that person or that person’s spouse or domestic partner.

## Disclosures – Government

- A reporting entity is exempt from the disclosure requirements of IAS 24.18 in relation to related party transactions and outstanding balances, including commitments, with:
  - a) a government that has control, joint control or significant influence over the reporting entity; and
  - b) another entity that is a related party because the same government has control, joint control or significant influence over both the reporting entity and the other entity. (IAS 24.25)

## Disclosures – Government

- If a reporting entity applies the exemption in IAS 24.25 (last slide), it shall disclose the following about the transactions and related outstanding balances referred to in IAS 24.25:
  - a) the name of the government and the nature of its relationship with the reporting entity (ie control, joint control or significant influence);
  - b) the following information in sufficient detail to enable users of the entity's financial statements to understand the effect of related party transactions on its financial statements:
    - i. the nature and amount of each individually significant transaction; and
    - ii. for other transactions that are collectively, but not individually, significant,
      - a qualitative or quantitative indication of their extent.  
Types of transactions include those listed in IAS 24.21. (IAS 24.26)

Significant

Not significant

## Financial Instruments

(IFRS 9)

### Chapters

- 1 Objective
- 2 Scope
- 3 Recognition and Derecognition
- 4 Classification
- 5 Measurement
- 6 Hedge Accounting (*not used yet*)
- 7 Disclosures (*not used yet*)
- 8 Effective Date and Transition

## Background

- In response to the input received on its work responding to the financial crisis, and following the conclusions of the G20 leaders and the recommendations of international bodies,
  - the IASB announced an accelerated timetable for replacing IAS 39 in April 2009, and
  - finally, [IFRS 9 Financial Instruments](#) in Nov. 2009

## Background

- It is intended that IFRS 9 will ultimately replace IAS 39 in its entirety.
  - However, in response to requests from interested parties that the accounting for financial instruments should be improved quickly, the project to replace IAS 39 is divided into [three main phases](#).
- As each phase is completed, as well as its separate project on the derecognition of financial instruments,
  - the relevant portions of IAS 39 will be deleted and
  - chapters in IFRS 9 will be created to replace the requirements in IAS 39.
- IFRS 9 issued so far includes only the chapters relating to [the classification and measurement of financial assets](#).

Financial Assets  
Only

## Chapter 1 and 2

### Objective

- The objective of IFRS 9 is to establish principles for the financial reporting of financial assets that will present relevant and useful information to users of financial statements for their assessment of the amounts, timing and uncertainty of the entity's future cash flows. (para. 1.1)

### Scope

- An entity shall apply IFRS 9 to all assets within the scope of IAS 39 *Financial Instruments: Recognition and Measurement*. (para. 2.1)

## Chapter 3 Recognition & Derecognition

### Recognition and Derecognition

- An entity shall recognise a financial asset in its statement of financial position when, and only when,
  - the entity becomes party to the contractual provisions of the instrument.
- When an entity first recognises a financial asset, it shall
  - **classify** it in accordance with paragraphs 4.1-4.5 and
  - **measure** it in accordance with paragraph 5.1.1.
- A regular way purchase or sale of a financial asset
  - shall be recognised and derecognised in accordance with paragraphs 38 and AG53–AG56 of IAS 39. (para. 3.1.1 to 3.1.2)

Same as before

Amended  
(Ch. 4 of IFRS 9)

Amended  
(Ch. 5 of IFRS 9)

Same as before

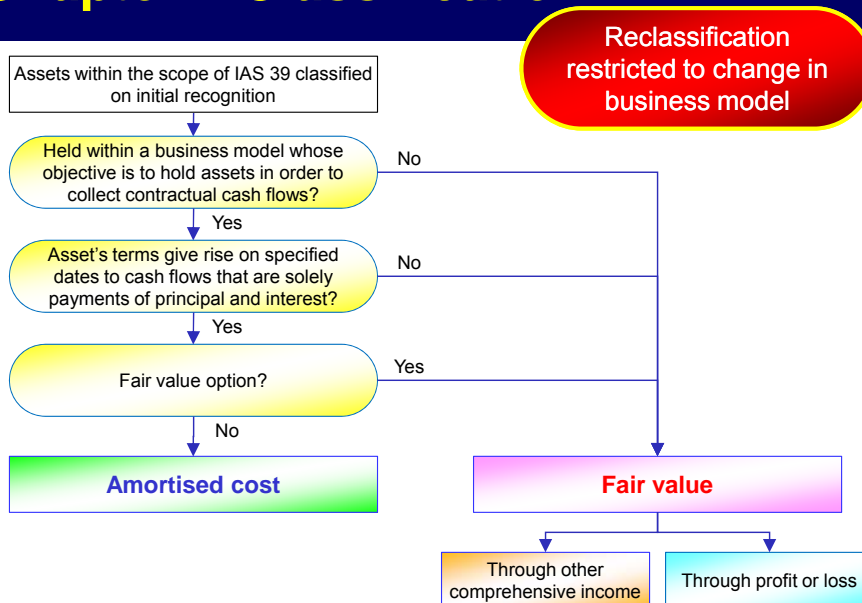

## Chapter 4 Classification

- Unless para. 4.5 of IFRS 9 (so-called “fair value option”) applies, an entity shall classify financial assets as subsequently measured at either
    - **amortised cost** or
    - **fair value**
- on the basis of both:
- a) the entity’s **business model** for managing the financial assets; and
  - b) the **contractual cash flow characteristics** of the financial asset. (para. 4.1)

Amortised cost

Fair value

## Chapter 4 Classification

## Chapter 5 Measurement

### Initial measurement (same as IAS 39)

- At initial recognition, an entity shall measure a financial asset at
  - its **fair value** plus,
  - in the case of a financial asset not at fair value through profit or loss, **transaction costs** that are directly attributable to the acquisition of the financial asset. (para. 5.1.1)

## Chapter 5 Measurement

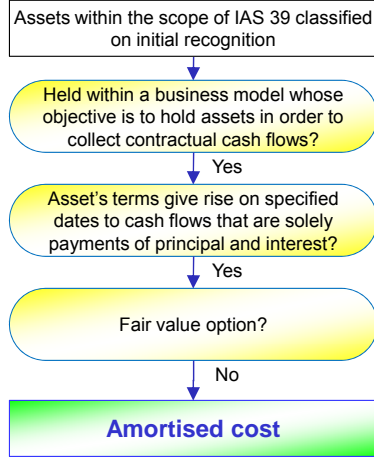

### Subsequent Measurement

- After initial recognition, an entity shall measure financial assets in accordance with para. 4.1 -4.5 (as discussed above) at
  - **fair value** or
  - **amortised cost**. (para. 5.2.1)
- An entity shall apply the impairment requirements of IAS 39 to all financial assets measured at amortised cost. (para. 5.2.2)
  - No impairment requirements on financial assets measured at fair value
- An entity shall apply the hedge accounting requirements of IAS 39 to financial assets that are designated as hedged items. (para. 5.2.3)

Amortised cost

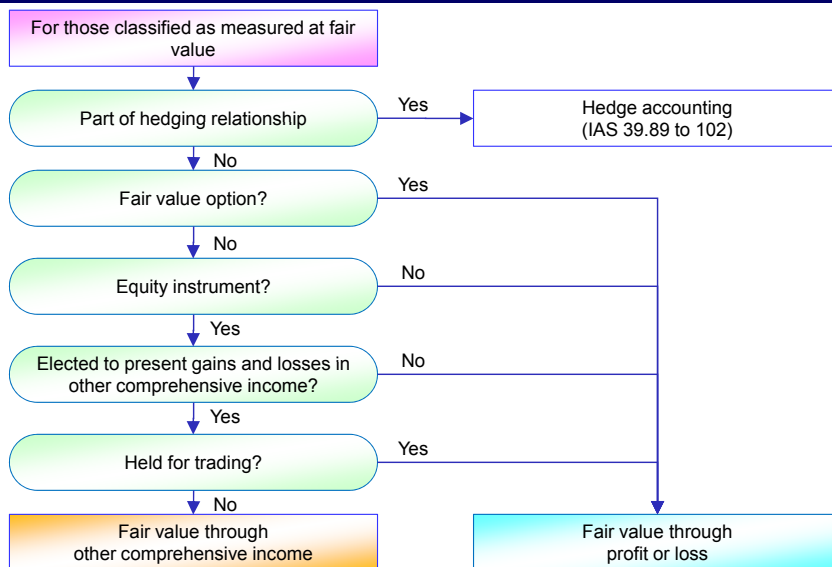

Fair value

# Chapter 5 Measurement

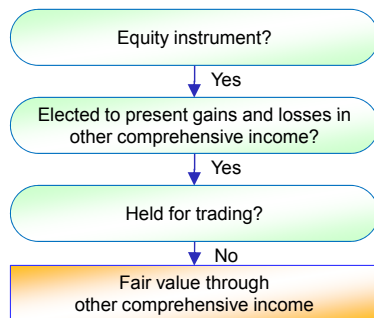

- A gain or loss on a financial asset that is measured at amortised cost and is not part of a hedging relationship
  - shall be recognised in profit or loss
    - when the financial asset is derecognised, impaired or reclassified, and through the amortisation process. (para. 5.4.2)

# Chapter 5 Measurement

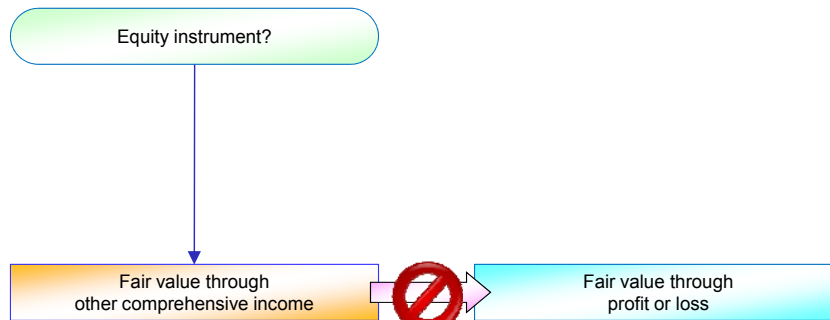

## Chapter 5 Measurement

- Such irrevocable election (presenting fair value changes in other comprehensive income)
  - is **made on an instrument-by-instrument (ie share-by-share) basis**.
- Amounts presented in other comprehensive income **shall not be subsequently transferred to profit or loss**.
  - However, the entity may transfer the cumulative gain or loss within equity (e.g.. transfer between reserves).
- Dividends on such investments are recognised in profit or loss in accordance with IAS 18 Revenue
  - unless the dividend clearly represents a recovery of part of the cost of the investment. (para. B5.12)

## Chapter 5 Measurement

- Under IFRS 9, amount presented in other comprehensive income shall not be subsequently transferred to profit or loss
  - Implies that
    - no recycling of any fair value change on those financial assets measured at fair value through other comprehensive income to profit or loss (or income statement)
    - no gain or loss will be recognised in profit or loss (or income statement) on derecognition of such investments in equity instruments

## Chapter 8 Effective Date & Transition

### Effective date

- An entity shall apply IFRS 9 for annual periods beginning on or after 1 January 2013.
- Earlier application is permitted.
- If an entity applies IFRS 9 in its financial statements for a period beginning before 1 January 2013,
  - it shall disclose that fact and at the same time apply the amendments in Appendix C (i.e. Amendments to other IFRSs). (para. 8.1.1)

## Latest Development of IFRS (and HKFRS)

14 October 2010
